

ChloroMate™

SP Series Salt Water Pool Systems

Naturally simple
sanitation of your
swimming pool water

Premium Quality, Self Cleaning, Simple Operation

Chloromate SP Series salt water pool systems utilise low levels of common salt (3500ppm) to sanitise the pool water. The mild salt water is electrolysed using an advanced process performed by a fully regulated electronic power supply and premium quality self cleaning electrolytic cell providing virtual maintenance free operation. Models available to suit the majority of swimming pool applications from small patio pools to large commercial installations. Suitable for new and existing pools of various surfaces.

Sanitise your pool water the pure and healthy way with Chloromate. Naturally simple.

Advantages

- No handling or storing of chlorine
- Environmentally friendly.
- Fully automatic, safe and simple to use
- Non irritating to skin and eyes
- Sparkling clear pool water
- Mild salt water has therapeutic benefits
- Suitable for all pool surfaces
- 2 year full warranty
- Plus extra 3 year pro-rata warranty on cell

Features

- High flow rate cell
- Cell output LED indicators
- Premium quality weather proof cabinet
- Polarity indicator
- Water flow detector
- Easy to set quartz time clock with battery back up
- Advanced reliable electronic technology
- Simple operation
- PCB controlled system protection
- Premium quality self cleaning cell electrode
